From Curiosity to Classroom: Exploring How AI Can Move From an Interesting Tool to Something We Actually Use in Our Work

Friday, September 18, 2026 | 10:00–11:30 AM | 90 Minutes

TIME	DURATION	AGENDA	PRESENTER / LEAD
10:00–10:05	5 min	Set the Intention	Stephanie
10:05–10:35	30 min	Empowering Teaching with AI	Patrick Mahaffey
10:35–10:50	15 min	Connect & Share: From Curiosity to Application	Community
10:50–11:05	15 min	Building a Visual Aid for Electric Circuits Using ChatGPT	Travis Williams
11:05–11:20	15 min	What's Happening in the CoP	Stephanie & Oenia
11:20–11:30	10 min	Q&A + Member Announcements	Community

CONNECT & SHARE: FROM CURIOSITY TO APPLICATION

Breakout Prompt: Where is AI showing up in your work?

Whether your “classroom” is a classroom, lab, office, student services area, or another part of the college, share how you’re experimenting with AI—or what you’re curious about trying.

- **Something I’ve tried:** What have you actually used AI for?
- **Something that worked:** What surprised you or saved you time?
- **Something I’m curious about:** What do you want to explore next?
- **Something I need help with:** Where could the community help?

Leave the conversation with: *One idea you can take back and try in your work.*
